ECHOVISE × IBS Precision Engineering

Faster technical answers at IBS

Made for Theresa Spaan-Burke · 13 November 2026

Interactive online: **ibs.echovise.com**

“For over 30 years we have been helping our customers address unique problems.”

IBS Precision Engineering, on ibspe.com

1. Customers include ASML, CERN and Rolls-Royce
2. IFAC Paper Prize for Physics-Guided Neural Networks
3. Offices in Eindhoven, Stuttgart, Solihull and Lille

An answer assistant

It reads the question, searches manuals and earlier answers, and drafts the reply. Your application engineer checks and sends.

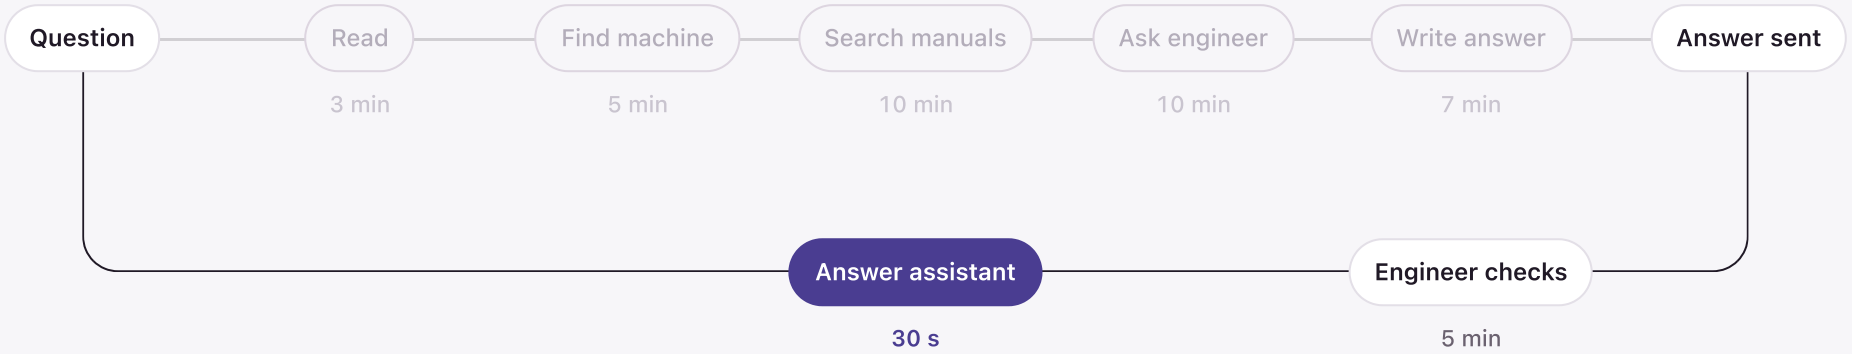

“Can the Rotary Inspector check a table-table machine at Halvorn?”	A draft reply with the setup and the manual page
“Inspector or Analyzer for the Brevik test floor?”	The difference for their case, with an earlier answer
“What did we tell Tervani about spindle drift last year?”	The earlier answer, with the report it came from

The shorter route

Example with invented data

Interactive in the browser Switch between today and the shorter route at **ibs.echovise.com/#demo**

Today: five steps by hand, 35 minutes per question.

The assistant does the searching. Your application engineer reads the draft and sends it.

Per question **5 min**

What it saves

30 min
on every question

7 hours
a week, back for your team

Today	Read	Machine	Manuals	Ask	Write	35 min
With the assistant	Check					5 min

An estimate for 15 questions a week from customers and agents. A pilot measures it on your own questions.

Your data stays yours

Where Echovise works

1

Free consumer AI

May train on your data

2

Paid consumer/ business AI

Stored by the provider

3

Enterprise AI, Europe

Nothing stored

4

Open models, EU hosted

No AI provider

5

Open models, on your site

Nothing leaves

Echovise

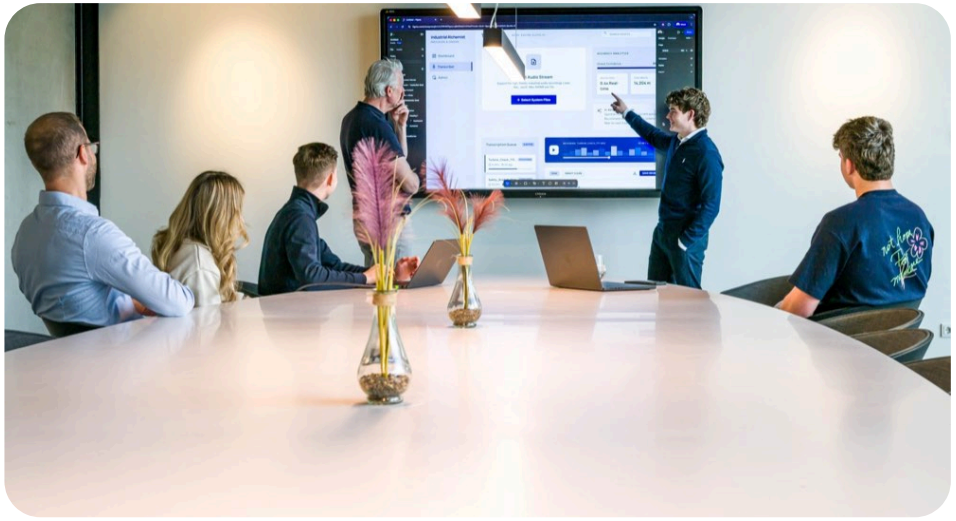

Your AI partner. Privacy first.
